

importance to all concerned & baby too, with open eyes & open hearts.
Freedom of Choice

10) Athletes:
Very important to every one, and we have the OLYMPICS coming up, Man to Man or Gay, Woman to Women or Lesbian, But anything other is unfair and can't be tolerated.

There is so much more, so please click the QR code and see more... I need your donation to make it happen and continue the stride. Without it I can't do anything at all. I need your VOTE to seal the deal and we need to get a big jump on things to make sure you can benefit from these ideas. You will be much better off and that is a sure answer. But time is running out and if we're going to win this, you have to step forward. I am totally dependent on you and your family depends on you to make the right decisions. For your business to continue to have work, restaurants to continue to stay open, with better food prices and a new health care... Well it's already a huge savings because you're the one who is winning. The little bit you donate to me is nothing of what will be coming back to you. We all need help. Please send what you can, so I can do a

better job in getting all of us in place for a better life. So, what do you say? Let's do this together. there is so much to say and so much to do, The Left people don't care about you otherwise they wouldn't let it get this bad. That's why we have so many problems; even during the riots our head people took off, it seems like when there's a problem everyone is gone?...Why... That's because many of you VOTED Wrong, we need to fix this way of thinking if we're ever going to get this fixed and get ahead. I know I can fix the problems we have; I will be hiring many to handle the new work load that I will be asking to have done I'm trying to get the best speedy recovery as possible in order so that we can all live and enjoy life better and safer for all. We will be stronger than ever before for the win of the likes you have never seen before.

A sincere Thank You

Ronald A. Anderson
for California Governor 2026

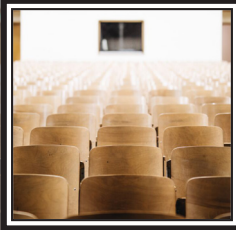

I will be speaking to you like NO One has ever spoken to you before. That's because they don't have what it takes... We all go to the same grocery stores, the same gas stations, and we all have seen the issues of violence and ongoing problems with the left's way of thinking; Well it's time we make that CHANGE for the better of us all.

RonAndersonForGovernor.com

1) We have discrimination and disruption in our Colleges and Universities There is No so called freedom of speech when the contents of speech relates to Discrimination of race, religion, destruction and prosecution of any person as well as abuse to school property. These places are not to be used for this type of concerns; its a place to study and learn and only just that... I have a plan...

2) Border Control:
It means what it says. We already have a system: It just needs to be enforced and adhered to. We have people doing hit and run, more drug issues than ever before, water supply being used, sex slaves, child abuse, more shootings, people stealing copper, metal from grave sites more violence, landfills escalating, sewer & water prices escalating and there's more. We have never had so many issues

since the open borders. This needs to be fixed, and only the proper way in.

3) Homeless Issues;
I have a cure to fix our Homeless problems that has not been done yet;

beaches will be clean again free from fecal and urine going down the sewer. We need to start ASAP...

4) Smash and Grab
I have a plan to prevent this from happening. The Thieves will think before doing their dirty deeds. It's a two part plan...click the QR code and see more

5)Police:
Our police department is not getting support as they should be getting; I will explain (see the QR code).

Also, I will invest more time in support of our police and all Law Enforcement: and better pay is always needed, I have a plan.

6) Fire Departments and EMT:
There are many places that need their building redone, and better equipment and pay is always needed

7) Health Care:
I do have a plan that no other has that will work (click the QR code). Also I will spend more time on reconstruction of our health care benefits for all ages. No person will be left behind and age is not an issue. We all need the help of A better system, for all concerned. I already have a few

ideas that will work. Putting this plan in gear will be life saving both in money and medically to those who are in need: I have a plan that others have failed in: I want every one to feel better and here it is. Prescription cost needs to be reevaluated.

We're all paying out too much money. I have a plan (click the QR code and see more).

8) Gun Rights;
I am a pro gun right person and for very good reason. History is the teacher and has the answer. We just don't have the right laws. We are stuck with the insane, mentally ill, racist, hateful people more than ever before, with a law that protects them. I wish to change

this kind of thinking and stop the very bad so that people will be safer than ever before. I will be speaking with attorneys and judges to make this state very safe. Many bad people have guns but somehow the good guy ends up being hated or dead, it's crazy. Not any more.

9)Abortion; *It's a woman's right*
I firmly believe that a woman's right to choose is fundamental to her complex life or circumstance. It is crucial that we respect a woman's ability to make critical choices as it impacts not only her life but also her relationships & future. Freedom to make decisions about one's own body must be protected as well as quality health care. Critical decisions are needed to be made after all a life is at stake as well and proper timing is needed with extreme
